

KANSAS
CITY

Reconnecting the **WESTSIDE**

**DEFINING
THE
PATH**

Reconnecting the Westside focuses on restoring connections within the Westside neighborhood, addressing historic challenges related to the construction of I-35 and I-670.

The Focus

Focused on providing safe transportation improvements for the community, the project aims to address some of the long-standing issues related to the construction of I-35 and I-670.

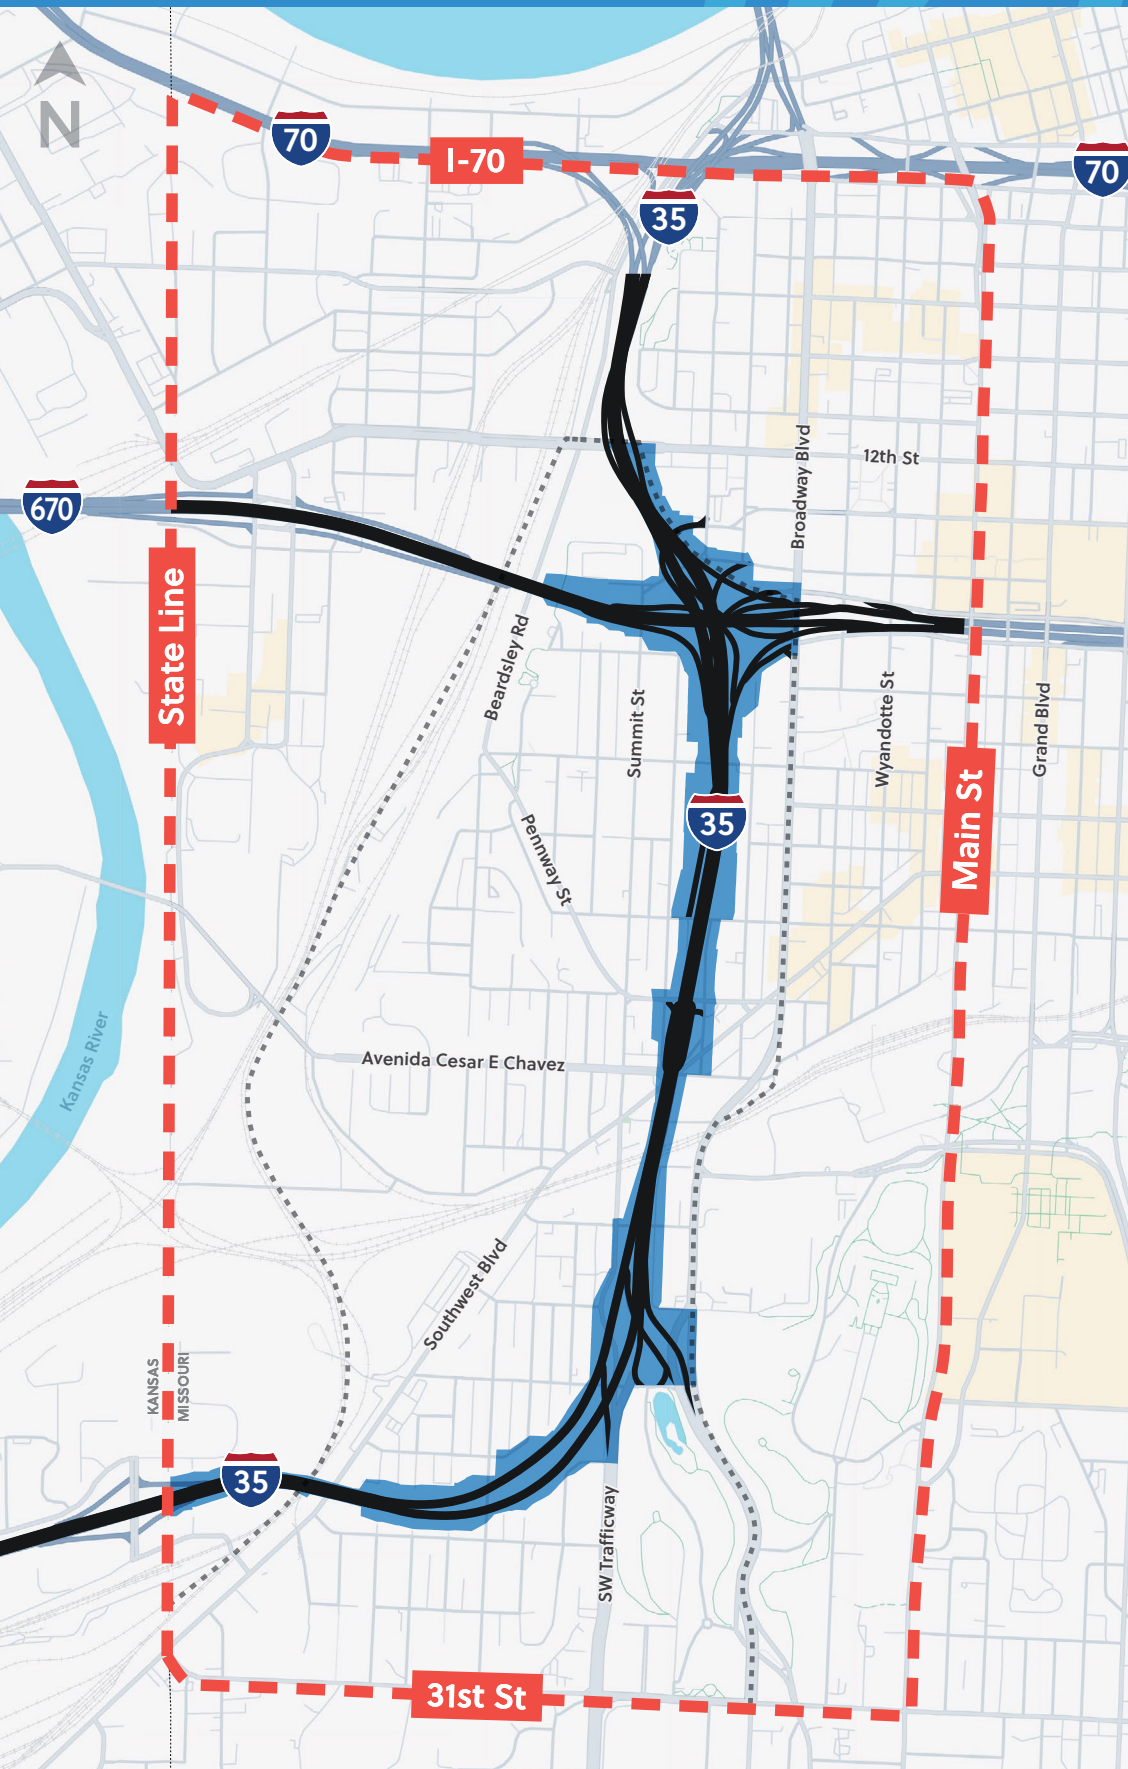

Led by Kansas City, in partnership with the Missouri Department of Transportation (MoDOT), Reconnecting the Westside represents a unique opportunity to build a safer and more connected future for the Westside community, prioritizing planning, safety, and long-term community benefits. This is about more than infrastructure — it's about listening to the community today and building a better future.

You, your family, and friends can get involved by sharing your Westside stories with us and identifying needed improvements. Ideas might involve land use, green space, housing, economic development, public health, education, traffic safety, and more. Strategies for change will be identified to address the corridor's needs.

Project Outreach Schedule

Study Area

Planning and Environmental Linkages (PEL) Study

Area of Influence encompasses the entire Westside neighborhood and extends to include nearby areas, which is defined by I-70 to the North, Main Street to the east, 31st Street to the South, and the Kansas-Missouri State Line to the west. These limits are subject to change based on the PEL study process.

This initiative focuses on:

- Connecting communities divided by aging and outdated infrastructure
- Enhancing transportation safety and neighborhood access
- Addressing environmental and social concerns
